

# Kidney Health Marathon Fundraiser

## Want to make a difference?

### You Can!

I'll do the running, with your support. Whether it's in the form of a small donation, following me on Facebook, or a cheer along the course, every little bit will help!

### The Event

I will be running the Auckland Marathon, but with a twist... I will start in last place and try and pass as many people as possible along the way to the finish line. Donate per person, or a lump sum. All of the money raised goes directly to **Kidney Health NZ.**

### My Story

I suffered from kidney disease which resulted in two surgeries in my younger years and the removal of my left kidney when I was 14. I have always wanted to help others who have suffered from kidney issues. My name is Craig and this is my way to help.

### For Businesses

I am also looking for businesses that would be willing to sponsor a set amount or an amount per person I pass along the way. Contact: [onekidneynz@gmail.com](mailto:onekidneynz@gmail.com).
